SUMMARY

Computer Science Engineering student passionate about problem-solving, creative design, and task management. Skilled in frontend development using HTML, CSS, JavaScript, and React with a strong foundation in Python and a keen interest in machine learning. Possesses a strong vision for innovative and impactful frontend design, leveraging modern frameworks to enhance user experiences.

EDUCATION

SRM Institute of Science and Technology

B.Tech Computer Science

Aug 2023 – 2027

CGPA: 9.29

Indian Institute of Technology, Madras

B.S. Data Science (Foundation)

Jan 2025 – Present

Vels Vidyasharam

High School (Physics, Chemistry, Maths, Computer Science)

2016 – 2023

Grade: 80%

SKILLS

Programming Languages: Python, JavaScript, SQL, Java

Web Technologies: HTML5, CSS3, JavaScript, React

Databases: MySQL, MongoDB

Tools: Git/GitHub, VSCode, Canva

Libraries: Pandas, Numpy, Matplotlib

Core CS Concepts: DSA, Object Oriented Programming, DBMS

PROJECTS

Cookbook Recipe System

- Developed a web-based restaurant management application with features to add, edit, and delete menu items, place orders, and generate bills.
- Designed an interactive frontend and integrated backend database for seamless menu and order management.
- Tech Stack:** HTML, CSS, JavaScript, Flask, SQLite/MySQL

Weather Detection through AI

- Built an AI-based system for predicting weather conditions using historical meteorological datasets.
- Applied machine learning algorithms (Random Forest, Neural Networks) for classification and forecasting of weather patterns.
- Integrated real-time weather APIs and developed a visualization dashboard for user-friendly interaction.
- Tech Stack:** Python, Pandas, Scikit-learn, Flask, HTML, CSS, JavaScript

Code Text Editor Webpage

- Designed and implemented a browser-based code editor with syntax highlighting and real-time preview.
- Supported multiple programming languages and user-friendly interface for testing snippets.
- Integrated save/export features for code persistence and sharing.
- Tech Stack:** HTML, CSS, JavaScript (CodeMirror/Monaco Editor), Flask (backend integration)

POSITIONS OF RESPONSIBILITY

- **Managing Director, Tech Vayuna**

SRM Institute of Science and Technology

- Contributed to organizing and managing technical events and workshops.
- Led project planning and team coordination to foster innovation and collaboration.

INTERNSHIP

M. S. Swaminathan Research Foundation (MSSRF)

Jun 2025 – Present

Research & Machine Intern

Chennai, India

- Worked on *Smart Forest Fire Risk Detection and Spread Prediction* using GIS & ML for Indian forest zones.
- Developed a local-level fire risk alert system for villagers and forest officials.

ACCOMPLISHMENTS

- Won **2nd** place in Paper Presentation in **INTBOT'25** at SRM, Ramapuram on the topic Automated Soil Irrigation and received a cash prize.
- Project Presentation, SARAM'25, SRM: Presented an IoT-based project aimed at benefiting farmers, gaining hands-on experience with real-time applications.
